Business of the Month

Burrell Implement Company

Burrell Implement Company began as a repair shop on Main Street in Fairview in 1961 when Bryan Burrell graduated from OSU and returned to his home town to build a business. In the next ten years farm equipment lines became available with Oliver, Allis Chalmers, New Holland, and in 1972, John Deere.

As the farm equipment business grew the present building three miles west of Fairview on Hiway 60 was built and Burrell Implement Co. has been open in the same location since 1963. Bryan and Sue Burrell managed and operated the dealership and their two sons, Mark and Paul grew up in the business learning and working in all of the departments: sales, parts, service, delivery and management.

After graduating from OSU, Mark became more involved in the business and now manages the store. During the last ten years Mark has specialized in grain drills and developed an extensive grain drill and drill parts inventory, along with the manufacture of drill conversion parts. Mark has also specialized in stocking baler belts for all brands. Local farmers are our best customers but the Internet has broadened our markets and we now ship belts and drill parts all over the country.

We appreciate being a part of this great community and being chosen Business of the Month for May.

Bryan, Sue, and Mark Burrell
